WASH V DOWN

360

THE MOST ADVANCED HYGIENIC DESIGN WITH IP69K PROTECTION

# ENGINEERED FROM THE GROUND UP FOR THE ULTIMATE CLEAN

## UNIQUE HYGIENIC DESIGN

*with optimized  
surface areas*

## EASY, FAST, and THOROUGH cleaning

**IP69K**  
- the highest  
protection

*Meets the **HIGHEST  
HYGIENIC STANDARDS**  
in the food industry*

- ▣ Robust stainless steel construction
- ▣ up to **160 bags/min**
- ▣ max **cross seal** width of **360mm**
- ▣ up to **20 l** capacity bags
- ▣ One machine for **4 different bag types**
- ▣ **4 modifications** to extend bag functionality
- ▣ 5-30 min changeovers between bags
- ▣ Engineered to meet EHEDG / 3-A standards

The WASHDOWN-360-CONTI series of VELTEKO vertical packaging machines was built from the ground up to allow for the most efficient and effective washdowns that ensure it meets the stringent hygienic requirements required in the food manufacturing industry.

## MACHINE FEATURES

- Automatic film centering
- Friction/Vacuum pulling belts
- Registration mark sensor
- Mechanic/Pneumatic splicing table
- Robust construction
- Self-diagnostics and troubleshooting

## HUMAN-MACHINE INTERFACE

- Full color touch screen
- Industrial PC
- Intuitive machine setup and on-screen guide
- User presets for machine setup

## DATASERVICE

- Online service support
- Online data management
- OPC dataservice available

## 4 TYPES OF BASIC BAGS

Pillow bag

Gusseted bag

Corner creased bag

Flat bottom bag

## MODIFICATIONS

# Unique hygienic design for the ultimate clean

With a complete engineering focus on hygiene, its advanced washdown design features hygiene-optimized surfaces, elimination of hard-to-clean corners and holes, and reduction of other problematic areas.

As a result, you are able to thoroughly wash and sanitize the entire machine, from top to bottom, leaving no place for bacteria or other contaminants to hide.

## Engineered for a highly hygienic, anti-allergic and bacteria-free environment:

- ❑ **Modular, stainless steel construction**
- ❑ **Elimination of hard-to-clean corners**
- ❑ **Max. reduction of horizontal surfaces**
- ❑ **Use of *certified construction materials* for food manufacturing operations**
- ❑ **Engineered to meet EHEDG / 3-A standards**
- ❑ **Washdown Accessibility**

# IP69k - The highest protection available

The IP69k certification ensures that our machine can withstand high-pressure cleaning and exposure to water and steam, providing unbeatable protection against contamination.

The WASHDOWN-360-CONTI series of machines can be completely washed down at extremely high pressure, with very hot water, at very close distances.

- Up to 80° C (176° F) water temperature
- High pressure washer - WAP
  - Down to 175 mm (6.9 inches) from machine surface
  - Up to 100 bar/1,450 PSI with a flow rate of 14 to 16 l/min

# VELTEKO Philosophy

Provide customers around the world with a wide range of versatile and specialized vertical packaging solutions tailored to their individual needs.

## Advanced Engineering, Design and Construction

Extreme reliability and an extra long service life are a direct result of VELTEKO's cutting edge engineering and design, combined with precise manufacturing in the Czech Republic using the highest quality materials and branded components.

## We supply complete packaging systems

- Upstream and downstream systems
- Custom project engineering
- Technical and engineering support throughout the packaging system's life cycle

# Technical parameters

WASHDOWN-360-A-CONTI	
Operating mode	Continual
Max. practical speed	Up to 160 min-1
Max. dimension of cross seal	360mm
Max. roll width	800mm
Max. roll diameter	450mm
Dimension of machine	WxLxH = 1662 x 2785 x 2355 [mm]
Protection	IP69K
Construction material	the majority stainless steel

# Easy to maintain

- Monitoring of service intervals, depending on the type of machine operation.
- Extensive self-diagnostics and monitoring.
- Ability to set access rights to individual controls.
- Sensors with connectors for easy replacement.
- Interactive manual and spare parts catalog for each specific machine configuration.
- Automatic check for pneumatic leaks.
- Support from VELTEKO's Service Center.

*Dials and scales*

*Full color touch screen  
with Industrial PC*

*Intuitive setup*

## More machines from our portfolio

### VERSATILE-360

- One machine for 10 bag types
- 15 modifications to extend bag functionality
- Maximum flexibility, your safe choice
- Extremely compact machine footprint
- Leading cost-effective DOYPACK production
- 200 bags/min maximum speed
- 5 - 45 min. changeover to different bag type

### SLIM-280

- Up to 200 bags/min
- Up to 400 bags/min with the twin version
- 820 mm wide - space-saving design for cost-effective production
- Strong/robust, hermetic seals
- Ideal for wide range of products from confectionery to snacks and fragile to liquids

**VELTEKO – The vertical packaging machine experts**
